

### **John Kickery**

John Kickery owns Kickery Kreative; a computer repair business located in Pittsfield, Mass. and has two A.S. degrees, one in Communication Design (Graphic Design) and one in Media Arts (Web Design & Animation). John has years of technical experience and specializes in computer repair, upgrades, and web design as well as countless software programs including, but not limited to Photoshop, Illustrator, and Quark. John's problem solving skills, artistic ability and creativity enable him to upgrade or rebuild all computer components. John has created websites for well-known companies and individuals throughout Berkshire County and is recognized for the kindness and honesty he gives his clients, friends, and family.

### **Jim Squires**

Jim Squires owns Armory Studios, a tattooing studio located in Adams, Mass. and has been tattooing for over 18 years. Jim has, and is well known for, his three major artistic skills: Drawing, Airbrushing and Tattooing. He has countless years experience drawing, particularly freehand drawing, most of which become future tattoo and airbrush creations. He specializes in drawing family, child and pet portraits. He has used his airbrush skills right here in the Berkshires to work on *The Book of Pooh* - the animated series, Hollywood blockbusters like *The Matrix* and *X-Men* as well as the *Back to the Future* ride at Universal Studios in Florida. Jim has done countless airbrush projects on cars, trucks, motorcycles and much more. His skills and talents are unlimited!

## Class Descriptions

### Basic Computer Knowledge:

This class is for those of you who want to learn the basics of installing a home computer. Instruction includes the proper way to plug in components such as your keyboard, mouse, monitor and printer. Learn how to use and navigate your computer, save files and back-up your work so you don't lose it. The class is primarily for people who have no knowledge or very little knowledge of computers.

### The World Wide Web:

Learn how to surf the Internet safely and what to beware of. Get tips on basic e-mail usage such as reading and responding to e-mail, sending links, and attaching documents and pictures. Find out how to navigate the Internet safely and run an anti-virus program to keep your computer clean.

### Build Your Own Web/Myspace page:

Find out the basics of how a webpage works online. Learn how to make your own Myspace pages. When you leave this class you will be on the road to social networking online and have your own Myspace page to show your friends and family.

**Ebay 101:** Learn how to use Ebay to your advantage. This class teaches the basics of how to buy and sell on Ebay, how money transfers work, how to bid on an item and what to be cautious of. By the end of this class you will be an expert on navigating the site.

### Photoshop I: For Beginners: Level 1.

Learn the basics of Photoshop such as what each tool does and what you can do with your imagination. By the end of this class you'll know about color modes, image formats and the usage of each tool within Photoshop. You'll also be ready to share your pictures with your friends and family.

### Photoshop II: Intermediate: Level 2.

Find out what Photoshop is really made of. Learn what to do and what not to do in the world of digital imaging, copywriting and how to manipulate photos. It is necessary to know the basics of Photoshop before taking this class.

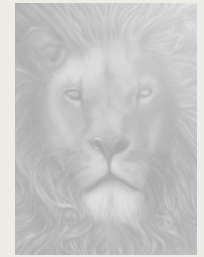

### Photoshop III: Experienced: Level 3:

Learn how Photoshop can be used in everyday life. Find out about Photoshop filters, Photoshop tricks, how to manipulate photos and enhance old family pictures. Use Photoshop in every aspect of digital imaging and see how it can be incorporated into everyday life. It is necessary to be at an intermediate level in Photoshop before taking this class.

**Airbrushing 101:** Learn the ins and outs of being an airbrush artist. Discover the fundamentals of airbrushing such as the mechanics and assembly of the airbrush and freehand control. The techniques and principles demonstrated can be used for all airbrush applications. You will design and create your first airbrush painting in the class. The airbrush gun, airbrush paint and air hose, will be yours to keep after you complete the class.

### Airbrushing 101, Part 2:

If you thought the first class was fun and you learned a lot while having a good time, this class will blow you away. Learn more advanced techniques like clouds, chrome, and wood and ice textures. After taking this class your artistic confidence and abilities as an airbrush artist will be extreme. Completion of Airbrushing 101 is required before you can take this class
